Dear Mr. Radigan:

Thank you for the outstanding program recently put on by Transplant Speakers International for our organization. It was very exciting to see new volunteers attend. The program was well suited to both veteran and new volunteer speakers.

The participants have evaluated the TSI program, and the remarks were extremely supportive. I don't think I've ever seen a program evaluation come back with such consistent marks of excellence. Speaking confidence levels increased from nearly every participant! Your program certainly works – many participants commented on the helpful technique of outlining their stories into five points, and on the public speaking critique.

We look forward to working with you again in the near future, so that more of our volunteers can receive TSI Training.

Sincerely,

Tammie Havermahl
